- ★ Exciting graphics and games provide feedback and interactivity
- ★ Practice section allows the student to choose the problems they want to work on and they can print a report with those problems they miss
- ★ Target Grades 1 - and up
- ★ Appropriate for all ages 6 & above

Super Star Online

The Games of Math

Games of Math 2 is a unique and exciting way to learn subtraction (with addition), measurement, geometry and time! Students begin at the appropriate level: beginning, intermediate or advanced. There is a practice section to work on specific number sense problems, addition and money skills. Students then select their character and build a custom pet which will be used throughout the games. There are 6 challenging games, each game features 5 levels of play. The objective is to complete each level and earn the gold star certificate while building skills and fluency.

Students chose the stage they want to begin on, though teachers can set or change the stage as needed.

Designed for Grades 1, 2 and 3

This program features 3 stages, each stage has 5 levels.

- Stage 1 was designed for 1st grade students using 1st grade standards
- Stage 2 was designed for 2nd grade students using 2nd grade standards
- Stage 3 was designed for 3rd grade students using 3rd grade standards

The Practice

In the practice area, students can pick the problems they want to work on, then they can select a 1 minute, 2 minute, 3 minute or 30 question test. At the end of the test, the problems they missed can be printed and they can retake the test with those problems.

There are 3 practice areas:

1. Subtraction Practice
2. Measuring Practice
3. Geometry Practice
4. Time Practice

Pre-Test and Post-Test

A Pre-test and Post-test helps track the progress of each student and class.

Teachers' and Site Features

This section includes:

- a) A Student Management System to manage student names and set control features
- b) Class Progress Report
- c) Class Test Report
- d) Game Locks & Difficulty Controls
- e) A school wide course usage report
- f) Teachers' and Site Admin Online Resources Course

Motivation and Tracking System

The Help Me 2 Learn - Super Star Progress, Motivational and Tracking System

Our Super Star Progress Graph, Motivational and Tracking System is designed to keep students engaged and motivated. Students choose the appropriate level to begin. Their goal is to complete each level in each game (lesson) to move up the levels to complete level 5 of each game and all of the stages. They are rewarded with a gold star and a certificate of completion for that game. If they earn a gold star in all 6 games, they are rewarded with an overall gold star and certification of completion for the program.

Online: PC, MAC & Chromebook

Games of Math 2 is included in any subscription to Super Star Online. Compatible with Windows, MAC and Chromebook computers. Requires Flash browser and fast internet connection.
