Features

- ★ Designed for Pre-K and K students with option to select grade level
- ★ User Friendly
- ★ Super Star Motivation and Tracking System
- ★ User does not need to know how to read to use the program
- ★ Appropriate for ESL and Special Needs Education
- ★ Target Age 3-6, Grades PreK-K

Silly Pictures

They say that a picture is worth a thousand words and we believe that "they" (whoever "they" are) might be right. The purpose of Silly Pictures is to help beginning readers learn and recognize new words through the use of pictures and sounds. We call them Silly Pictures because the words are often combined to make silly pictures.

This mini course is an expanded version of activities found in our Beginning Reading with Phonics course. These skills are so important that we decided that we needed to give students more practice with these skills. This course has three sections:

Picture Builder: This very simple and powerful activity allows students to create pictures by selecting pictures that represent words. Their choice is then combined to create a new picture and a sentence about the picture with the words read to them.

Learn the Words: Our "Learn the Words" section allows students to increase their vocabulary by showing a picture of the word, the word with the sound of the word and the sounds (phonemes) that make up the word. Their understanding of the words is verified by a one-minute time test called a Speed Round.

Picture Stories: Now that students are familiar with the words, they are now challenged to complete the first letter of the words used in a picture sentence.

Online: PC, MAC, Chromebook, Android & iPad/iPhone

Beginning Reading with Phonics is included in any subscription to Super Star Online. Compatible with Windows, MAC and Chromebook computers. Can be used on Android devices (download our app) and iPad/iPhones.

Teachers' and Admin Features

- An explanation of the Super Star System
- Class and Individual Progress Reports
- A school wide course usage report
- Teachers' and Site Admin Online Resources Course

Easy-to-Use and Fun

Help Me 2 Learn products feature an easy-to-use navigation system that is user friendly. Then we use games and fun activities that reinforce the learning. The activities and games are all tied together with our "Super Star" system that rewards the student and motivates them to complete all the games and songs, while we track the progress of each student in a colorful and easy to understand report. Once a student has earned a few silver or gold stars, they want to keep on going until they have earned all the stars.
