### Super Star Online

### Learning Spanish/English with Phonics

This program is very special; it is a unique phonics based approach to learning the sounds of the Spanish/English language. This program uses the best advantages of technology to instruct, to allow the student to interact with the instruction, to drill, to test and allow the student to explore the sounds and words of the Spanish/English language. Spanish 1a/Inglés 1a with Phonics breaks the words down to their sounds, then builds on that sound recognition to build words and word recognition.

Spanish 1a with Phonics teaches Spanish to English speaking students. Inglés 1a con Fonética teaches English to Spanish speaking students.

**Instruction** - The Help Me 2 Learn characters give concise instructional presentations about key concepts with visuals that make learning Spanish/English fun.

**Sing-a-long Songs** - The Spanish 1a/Inglés 1a songs from Twin Sisters Productions teach easy-to-remember Spanish concepts and words put to a lively and fun beat.

**Learn the Words** - The "Learn the Words" section allows the student to see and hear how the words that were introduced in the songs are formed in Spanish and English; using pictures, the word sounds and phonemic sounds. This program is also an excellent remedial program for English!

**Activities/Games** - The student is challenged with fun and exciting games to identify Spanish/English words and sounds and to earn a silver or gold star on each activity/game.

**Final Review** - The Review game challenges the student to use all of their knowledge of Spanish/English words to win the final game and become a Super Star! We guarantee that students will know the basic Spanish/English words taught in this program and they will know that they know them!

### Teachers' and Admin Features
