

[Announcing New Pricing for the 2019 - 2020 School Year](#)

It has been 10 years since we started Super Star Online. Our price in 2008 was \$4 per user, per year and our price is still \$4 per user, per year. I believe that our pricing is not only fair, but a great value for the amazing courses we offer.

Since 2008, we added several new courses and we made several improvements to our courses and our learning management system. We are currently converting our courses to HTML5 and we are now offering single sign-in and data synchronization with Clever.

Effective **January 1, 2019** our pricing for **new customers** will be \$5 per user, per year (25 users minimum) with the option of using Clever (using Clever will not be required, but the price of \$5 will be the same).

Our **current customers** have the option of keeping their current pricing of \$4 per user, per year for the 2019-2020 school year, or they can upgrade to our option of using Clever at the \$5 price. If you want to upgrade to Clever this school year, you can do that at the current price.

2017 - 2018 Student [Data](#)

July 1 is the beginning of the new school year for our school wide reports. I suggest that you print or download your reports before by June 30th.

To print or download your reports, sign-in as a site administrator or teacher and click on Reports on the brown button bar near the top. Our school wide reports will be displayed.

- You can select all the data and copy and paste this into a new document.
- You can right-click on the page and print the page.
- Site administrators can click on the Export report button and export the data.

These reports are excellent for showing your administrators how much you are using the Super Star Online courses.

Teachers can use these reports to view the progress of their class and individual students.

The individual data of the students is not deleted on July 1, just the data that displays in our school wide reports.

At the beginning of the new school year, site administrators have the option of starting fresh with new data or allowing their students to

keep their data and stars and continue working on completing all the stars in their courses. If you want fresh data, then let me know and I will create a fresh site for you.

If you want to keep your data and remove students who are no longer at your school, we have tools to help make it easy to manage your site. Please do not hesitate to contact me when you are ready to do this, if you have any questions or need any help.

New - Super Star Online Video

We have a new one minute video about the great variety of content found in Super Star Online. You can find it on YouTube at: <https://youtu.be/OnMmPm0Ejxg> or on Facebook at: <https://www.facebook.com/HelpMe2Learn> .

Have a great Summer!

Need a Quote?

If you need a written quote, I would be happy to provide one for you. Send me a request for a quote to: dan@helpme2learn.com . Let me know if I can help in any way. We appreciate your business.
