

Faces of Success

Congratulations to the Super Star Kindergartners of the computer lab at John Marshall Elementary in Glendale, California. Your Super Star computer lab teacher: Armineh Papazian is proud of you and so are we!

Letters and Numbers - HTML5

If you notice, the icon for Letters and Numbers now has our tablet icon in the lower left corner, indicating that this course is now available in HTML5. If you don't see any difference in the course, you are still seeing the Flash version. Our courses play the Flash version when Flash is available in the browser.

If you open the HTML5 version, there are several changes. We eliminated level 2 and put those activities on level 1. Some of the activities that were level 2 are now next to the level 1 activity and students have an option to do either or both. Some of the games have been updated.

See Common Grade Levels for Super Star Courses (below) for an updated list of our HTML5 courses.

We have been thinking about splitting Letters and Numbers into two

separate courses. One would be the Letters course and the other would be the Numbers course. I would love to hear your thoughts about this: dan@helpme2learn.com .

Someone has suggested that our courses are too large. It takes students too long to complete a course and earn their Gold Star Certificate of Achievement. Do you agree?

Effectiveness

Some publishers tout the effectiveness of their system. I have been reluctant to make any claims of effectiveness that we can't 100 percent prove. I see our courses as a supplement to the instruction given by teachers. I believe that our courses reinforce what teachers are teaching and give students another way to look at the lessons. Our courses are particularly effective when teachers present the lessons projected to the class and make them an interactive lesson. We can't take all the credit when our effectiveness is shared with great teachers.

If you look at the picture at the top of this newsletter, you can see success on their sweet faces as well as their Gold Star Certificate of Achievement in the hands.

A few years ago, we did have some teachers do some studies for us and those studies are available on our web site at: <https://helpme2learn.com/school/research> .

That being said, we do get comments from teachers about how much their students enjoy our courses and how much they are learning. We have a number of these testimonies from teachers, parents, and kids, available on our web site at: <https://helpme2learn.com/company/testimonials> . We would love to add your testimonial!

I did hear a recent story from one of our Super Star Teachers who said that she helped prepare her class for the state standardized test in math. She didn't have time to prepare her students for everything she wanted to cover, so she had them work in Games of Math to prepare for the test. 90% of her students scored "highly proficient" on the test. She was disappointed that her class didn't score 100% highly proficient, but that was because one of the students was absent for the previous week. ***What a disappointment!***

60-day Free Trial

If you know of a teacher, a school, or a district that could benefit from Super Star Online, please forward this e-mail to them. We normally give a 30-day free trial to schools. For those who get our e-mail newsletter and their friends, I am offering a 60-day free trial of Super Star Online with all our courses..

Just send your request for a 60-day free trial to dan@helpme2learn.com or call 800-460-7001.

Free Trial Link - open

For those who just want to take a peak at Super Star Online, I set up

a free student account with access to all of our courses at: <https://superstar.hm2l.com/trial> . User name: trial, password: star . This will be up until May 31. You do not need to give us any information to use this link. Please feel free to forward the link.

Pricing Update

Effective January 1, 2019 our pricing changed from \$4 per user (students and teachers), per year to \$5, for **new customers**. This includes an option for Clever integration.

Current customers will be able to keep the \$4 per user (students and teachers), per year price for the 2019-2020 school year. The new pricing will be effective for the 2020-2021 school year.

We no longer offer CD-ROM or Lab/Network versions from our web site. We still offer downloads of our titles. If you need a CD-ROM or Lab/Network version, call 800-460-7001. We may offer it by special order.

For those considering Clever integration; Clever is free to schools and districts. Clever offers single sign-on, Clever badges to make signing on easier for young kids, and Secure Sync which automates adding students and managing students.

You can learn more about Clever at: <https://clever.com/> . We offer a free 60-day trial of Super Star Online with Clever.

Common Grade Levels for Super Star Online Courses:

Grade	Course Titles
Pre-K 	Letters and Numbers * Silly Pictures *
Kindergarten 	Letters and Numbers * Silly Pictures * Beginning Reading with Phonics * Silly Sentences * Phonics 1a - Vowel Sounds * Phonics 1b - Consonant Sounds * Spanish 1a with Phonics Inglés 1a con Fonética
