

Letters & Numbers - New: HTML5 version

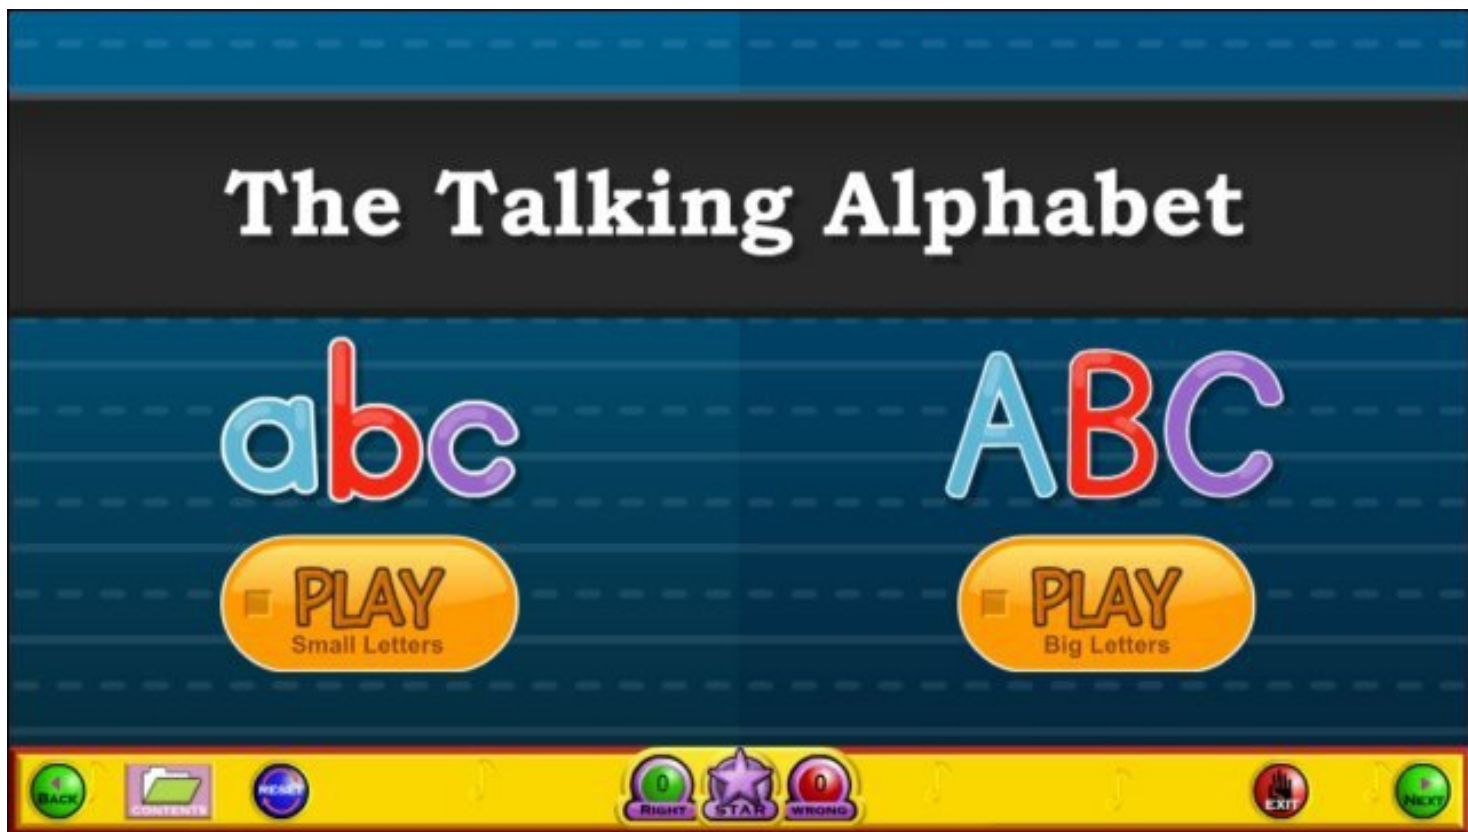

Earlier this year, we released the new HTML5 version of Letters & Numbers. There were more changes in the HTML5 version of Letters & Numbers than any of the other courses that we have converted. I thought I would cover some of the features and hopefully you will find that this course is even better than before.

I assume that you are familiar with our courses and Letters & Numbers. If you are not familiar, please take a look at our web site at: <https://helpme2learn.com/school/products/letters-and-numbers> .

We are still working on converting our Flash courses to HTML5. We are currently working on Games of Math 1 - Addition and Money because we found this to be our most popular course ([see our December/January newsletter](#)).

As you can see from the picture above, the first screen of Letters & Numbers has a new look showing the Letters side and the Numbers side. Click on a side to see the sub menu for that section. Most kids use our star system for navigation.

In the past, Letters & Numbers had two levels. The new Letters & Numbers has only one level, but we put most of the activities side-by-side. Only one side is required for a gold star. We suggest that you encourage the student to complete both sides and you will see a check mark in the small box on the PLAY button to indicate that the side has been completed. In most cases, the left side covers the lower case letters and the right side covers the upper case letters.

One of the big improvements is that our speed rounds have a new layout with the two sides and a wide screen. Students can earn a high score from either side. Speed Rounds are still not required for a Gold Star Certificate of Achievement.

This example of our Dot-to-Dot game shows a change. In the small letters Dot-to-Dot, students must complete all three puzzles to earn a gold star, or they can play the upper case letters and complete the entire alphabet in order to earn a gold star.

Not much change on our Super Star page, except that the letters are now arranged in the wide screen mode.

Not much change on the Speed Round page. Many of our 14 Speed Rounds have two sides, so there are really almost twice as many Speed Rounds. Though our Speed Rounds are not required to earn a Gold Star Certificate of Achievement, they are a great way to build skills proficiency and fluency. They can also be a great whole class activity when teachers let the students compete against each other in a Speed Round Challenge or a Team Speed Round Challenge.

A big **THANK YOU** to all of our subscribers and the teachers and administrators who use and support the Help Me 2 Learn Company and Super Star Online. We appreciate your dedication to the kids that you serve and we appreciate being a partner in your success. Have a great summer!

60-day Free Trial

If you know of a teacher, a school, or a district that could benefit from Super Star Online, please forward this e-mail to them. We normally give a 30-day free trial to schools. For those who get our e-mail newsletter and their friends, I am offering a 60-day free trial of Super Star Online with all our courses..

Just send your request for a 60-day free trial to dan@helpme2learn.com or call 800-460-7001.

Pricing Update

Effective January 1, 2019 our pricing changed from \$4 per user (students and teachers), per year to \$5, for **new customers**. This includes an option for Clever integration.

Current customers will be able to keep the \$4 per user (students and teachers), per year price for the 2019-2020 school year. The new

pricing will be effective for the 2020-2021 school year.

We no longer offer CD-ROM or Lab/Network versions from our web site. We still offer downloads of our titles. If you need a CD-ROM or Lab/Network version, call 800-460-7001. We may offer it by special order.

For those considering Clever integration; Clever is free to schools and districts. Clever offers single sign-on, Clever badges to make signing on easier for young kids, and Secure Sync which automates adding students and managing students.

You can learn more about Clever at: <https://clever.com/> . We offer a free 60-day trial of Super Star Online with Clever.
