

## Tyger Phonics - China

One of our most interesting customers is Tyger Phonics, located in Shenzhen, China. The founder and President of Tyger Phonics is Tyger Li.

We have been working with Tyger Phonics for about 3 years now. Tyger is a dynamic instructor who has become a great partner with us. He is a very charismatic and dedicated teacher and entrepreneur who is very excited about the courses of the Help Me 2 Learn Company and Super Star Online. In fact, our Silly Pictures and Silly Sentences were his ideas.

While he has developed additional material to help his students learn English using Super Star Online courses, he relies on our courses as the primary English instruction for his students. While we design Super Star Online courses for a wide variety of students with a variety of learning styles, our success in China really proves that with the support from a teacher, our courses are exceptional for ESL students.

Tyger frequently tells me of the great success that his students are having and how much they love learning English with Super Star Online. Education is changing in China and they are becoming more open to new approaches. A significant achievement that he accomplished this school year was to bring a large public school on board with Super Star Online, while significantly growing his primary online site.

We serve China from a server in China. The top Tyger Phonics site has 3888 users. They have logged 828,232 minutes (13,803 hours) of use since July 1, 2018.

Recently, Tyger sent me a video showing a variation of our Silly Pictures (which he loves). In this video, a student is using the pictures and words from Silly Pictures (we use the title Picture Builder in China) where students build the same sentences and stories using paper that they learned from the computer. You can view the video at: <https://youtu.be/KbZwLkSPrXw>

I am very happy and proud to be working with all of our customers, but I especially love hearing about the success of the students of Tyger and Tyger Phonics.

Another partner of the Help Me 2 Learn Company is AWE Learning (<https://awelearning.com/>). AWE Learning specializes in providing turn-key learning computers and tablets to libraries. These devices are preloaded with a wide variety of learning software. They are the Platinum Award Recipients in the 2019 Modern Library Awards from LibraryWorks! The Modern Library Awards is a review program designed to recognize elite products and services in the library market that help to enhance the quality of experience for library users and increase the performance of their library systems

Help Me 2 Learn Products can be found in **Early Literacy Station™ Platinum** and **AfterSchool Edge™ Platinum**. Typically they sell the AWE computer stations which are preloaded with a large number of learning software. We are very proud to be a partner with AWE Learning. They recently released the following press release announcing our partnership: [AWE Learning Press Release](#).

## Clever

Another valuable partner of the Help Me 2 Learn Company is Clever (<https://clever.com/>). "Clever makes it easy to use technology in the classroom,"

Clever offers Single sign-on, Secure Sync, and Clever Badges.

For those considering Clever integration; Clever is free to schools and districts. Clever offers single sign-on, which allows students to sign-on one time for all of their applications. Clever badges makes signing on easier for young kids. Secure Sync automates adding students and managing students.

You can learn more about Clever at: <https://clever.com/>. We offer a free 60-day trial of Super Star Online with Clever.
